### Please note:

If you are unsure about the standard grip size that fits your hand, please make an outline sketch of your shooting hand as follows, and send it to us by letter post or fax.

Place your forearm and hand, without pressure, on an A4 sheet of paper, as shown. Holding a thin ball-pen refill vertically to the paper and draw the contour as a dotted line on the sheet.

If you send us an outline sketch by fax please be sure to draw a scaled right angle on the same page to ensure that any dimensional disorientations resulting from transmission can be measured.
